## **Beast of the East Indoor Rowing Competition Competitor Handbook**

### **MEDICAL CONSIDERATIONS**

All competitors accept on entry that they will be competing in a very strenuous activity, and therefore are in good health and have been cleared by a medical doctor to participate in physical activity. As the competition is a virtual event it is required that competitors do not compete alone and that they have another person available to render assistance if necessary. It is strongly recommended that competitors participating in Beast of the East Indoor Rowing Competition complete a self assessment or screening pre-competition. If a competitor has tested positive for COVID-19, has symptoms of COVID-19, or suspects COVID-19 without a test, or if a competitor feels unwell, has recently been suffering from a virus, or is on medication for acute illness, we recommend that they do not take part in this event.

If completing your race at a club or in a gym where other people may be in attendance, racers should make sure to adhere to the relevant local/club/gym guidelines regarding social distancing and infection control. This may include bringing hand sanitizer and any required PPE being prepared to adhere to social distancing requirements. As an example, Rowing Canada Aviron (RCA) recommends the use of ergometers indoors for individual use only. All ergometers should be fully sanitized between users and used in a well-ventilated area. RCA allows the use of ergometers outdoors with appropriate spacing in place (at minimum 2 metres elbow to elbow.) If you experience any unusual pain, discomfort, nausea, dizziness, or shortness of breath while participating in this event, STOP rowing and immediately consult a medical expert or if experiencing continuing discomfort, call 911 or your countries' equivalent emergency number. Participation in Beast of the East Indoor Rowing Competition is entirely at your own risk.
